

AA-T Psychology

Psychology, the science concerned with behavior and mental processing, is a broad discipline, essentially spanning subject matter from biology to sociology. It covers the intersection of two critical relationships: one between brain function (biology) and behavior, and one between the environment (sociology) and behavior. Psychology is concerned with the study of human and nonhuman animal behavior and mental processing. While the individual is usually the focal point (as in personality, developmental, clinical and therapy areas) the influence of group behavior on the individual is also considered. Psychology involves both pure science and practical application to everyday living. The field of psychology follows scientific methods, using careful observation, experimentation, and analysis that results in scientific findings of natural and social science.

Career Opportunities

The U.S. Bureau of Labor expects opportunities for careers in psychology to continue growth over the next decade. Numerous opportunities will develop in secondary and postsecondary education, public and private social service agencies, and management consulting service. Careers in health care will grow fastest in outpatient mental health and substance abuse treatment clinics. Businesses will use psychologists' expertise for analysis and research to provide marketing evaluation and statistical analysis as well as employee assistance programs, which offer employees help with personal problems.

Program Learning Outcomes

Students completing this program will be able to:

1. Analyze social science concepts and theories.
2. Evaluate diverse viewpoints related to the human experience.
3. Produce evidence-based arguments.

AA-T Degree Requirements

Major: Core and Selective Requirements

Complete Core Courses, 10 units		Units
MATH 200	Elementary Probability and Statistics	4 units
PSYC 100	General Psychology	3 units
PSYC 205	Social Science Research Methods	3 units
OR		
SOCI 205	Social Science Research Methods	3 units

Selective Courses, choose a minimum of 9 units from the following:

List A, complete a minimum of 3 units from the following:

		Units
BIOL 110	Principles Of Biology	4 units
BIOL 130	Human Biology	3 units

List B, complete a minimum of 3 units from the following:

		Units
Any List A course not already used		3 - 4 units
PSYC 200	Developmental Psychology	3 units
PSYC 300	Social Psychology	3 units
PSYC 410	Abnormal Psychology	3 units

List C, complete a minimum of 3 units from the following:

		Units
PSYC 106	Psychology of Prejudice and Discrimination	3 units
PSYC 340	Introduction to Human Sexuality	3 units
SOCI 100	Introduction to Sociology	3 units

General Education - certified completion of one of the following:

- California State University General Education-Breadth pattern (CSU GE Breadth),
- **OR**
- Intersegmental General Education Transfer Curriculum (IGETC/CSU) pattern

Elective courses: If applicable, additional courses to meet the minimum 60 CSU transferable units requirement.

Please refer to Associate Degree for Transfer (ADT) Requirements for more information.
